Volume 2
1967

Published by

PSYCHONOMIC PRESS, BOX 38, 295 PINE AVE., GOLETA, CALIFORNIA 39017

Copyright © 1967 by Psychonomic Press

Due to an error in pagination, pages numbered 419 to 452 are duplicated in issues 9 and 10. To correct this error in this index, the issue number has been indicated for references to duplicated pages.

Contents of Volume 2

- The effects of coding procedure on human information transmission by J. C. Lamb and H. Kaufman, 256
- Some syntactic determinants of sentential complexity by J. A. Fodor and M. Garrett, 289
- Latency of the blink reflex and stimulus intensity by E. O. Bixler, N. R. Bartlett, and R. W. Lansing, 559

PSYCHOPHYSICS

- Some new hypotheses on the mediation of loudness judgments by W. R. Thurlow and L. E. Melamed, 77
- The frequency principle for comparative judgments by A. Parducci and Ruth Haugen, 81
- The effect of ischemia on the peripheral nerve action potential in man and its relation to somatosensory magnitude coding by W. R. Uttal, 137
- Quantitative functions for size and distance judgments by J. C. Baird and W. R. Biersdorf, 161
- Difference threshold for stimulus length under simultaneous and nonsimultaneous viewing conditions by H. Ono, 201
- A diffusion model of perceptual memory by R. A. Kinchla and F. Smyzer, 219
- Discrimination based on response-produced stimuli by B. T. Leckart and Vivian P. Bishop, 301
- Population norms of top sensory magnitudes and S. S. Stevens' exponents by E. C. Poulton, 312
- Invariance tests for bisection and fractionation scaling by M. R. Stewart, R. F. Fagot, and P. R. Eskildsen, 323
- On the psychophysical discriminability of somatosensory nerve action potential patterns with irregular intervals by W. R. Uttal and Pamela Smith, 341
- Conformity to experimenter-determined, payoff enforced criterion levels in the method of random staircases by G. Semb and M. G. Saslow, 396
- Some further tests of the constant-ratio rule by M. H. Hodge, 429 (10)
- Perceptual invariance and the psychophysical law by H. Yilmaz, 533

DETECTABILITY

- Deferred decision in human signal detection: A preliminary experiment by J. A. Swets and T. G. Birdsall, 15
- Factors affecting the slope of empirical ROC curves: Comparison of binary and rating responses by J. Markowitz and J. A. Swets, 91
- Interval of time uncertainty in visual detection by G. Lowe, 278
- Second choices in a visual span of apprehension task by J. I. Yellott, Jr. and P. F. Curnow, 307
- Strength theories of disjunctive visual detection by W. A. Wickelgren, 331

- Signal recognition as influenced by presentation schedules by T. A. Tanner, Jr., R. W. Haller, and R. C. Atkinson, 349
- Detection of auditory signals presented at random times by D. M. Green and R. D. Luce, 441 (10)

COLOR VISION

- The "looks" of Helmholtz by L. A. Riggs, 1
- Saturation estimates and chromatic adaptation by G. H. Jacobs, 271
- Spectral sensitivity of the sooty mangabey by C. K. Adams and A. E. Jones, 419 (10)
- Quantitative judgments of color: The square root rule by R. M. Warren, 448 (9)
- Color name as a function of wavelength and instruction by Aleeza Cerf Beare and M. H. Siegel, 521

BRIGHTNESS VISION

- Comparison of sensitivity of psychophysical and electrophysiological measures of scotopic thresholds in the vicinity of the blind spot by W. H. Payne, 128
- Brightness inhibition re size of surround by J. C. Stevens, 189
- Brightness, luminances, and Fechner's paradox by Davida Y. Teller and E. Galanter, 297
- Averaged occipital responses to stimulation of sites in the upper and lower halves of the retina by R. G. Eason, C. T. White, and D. Oden, 423 (10)
- Brightness function: Binocular versus monocular stimulation by J. C. Stevens, 451 (10)

FORM PERCEPTION

- Effects of discriminability and irrelevant information on absolute judgments by B. B. Morgan, Jr. and E. A. Alluisi, 54
- Phenomenal identity and form perception in an infant by T. G. R. Bower, 74
- Possible monocular predictors of binocular rivalry of contours by H. F. Crovitz and G. R. Lockhead, 83
- Stimulus correlates of visual pattern discrimination and the problem of grain by L. Zusne, 86
- Reply to Zusne by V. J. Polidora, 87
- Judgment stability and pseudorecognition of random and patterned configurations by B. M. Ross, 208
- The vertical-horizontal illusion in a visually-rich environment by A. Chapanis and D. A. Mankin, 249
- Evaluations of subjective complexity, pleasingness, and interestingness for a series of random polygons varying in complexity by H. Day, 281
- Ambiguous figure treatments in the art of Salvador Dali by G. H. Fisher, 328
- Noise methods in pattern perception by J. A. Duke, 338
- The perception of multiple simultaneously presented forms as a function of foveal spacing by J. F. Collins and C. W. Eriksen, 369

PUPILLARY RESPONSES

- Pupillary responses in a pitch-discrimination task by D. Kahneman and J. Beatty, 101
- Pupillary response as a general measure of activation by J. C. Nunnally, P. D. Knott, A. Duchnowski, and R. Parker, 149
- Pupillary response of male and female subjects to pupillary difference in male and female picture stimuli by T. M. Simms, 553

HEARING

- Continuity effects with alternately sounding tones under dichotic presentation by L. F. Elfner and J. L. Homick, 34
- Central masking: Some steady-state and transient effects by J. J. Zwislacki, E. N. Damianopoulos, E. Buining, and J. Glantz, 59
- Effects of temporal variation of auxiliary light stimuli upon detectability of tonal signals by W. H. Watkins and J. R. Schjelderup, 317
- Localization with complete masking in one ear by B. E. Dunn and S. Parfitt, 408
- Auditory evoked response in chinchilla: Application to animal audiometry by S. Rothenberg and H. Davis, 443 (9)
- Loudness functions under inhibition by S. S. Stevens and Miguelina Guirao, 459
- Errors in auditory direction-finding after compensation for visual re-arrangement by J. H. Rekosh and S. J. Freedman, 466
- An aftereffect in judgment of auditory duration by Felicia Huppert and G. Singer, 544
- Effect of head movement on the localization of sounds in the equatorial plane by I. Pollack and M. Rose, 591

SOMESTHESIS

- Psychophysical parameters of the perception of orally-retained liquid bulk by R. A. M. Gregson and Helen M. Matternson, 89
- On the refractoriness of somesthetic temporal acuity by W. R. Uttal and Madelon Krissoff, 115
- Human responses to various conditions of water temperature by P. J. Woods, Beverly A. Griffith, Ruth P. Page, and Patricia M. Rodier, 157
- Induction and retention of kinesthetic aftereffects as a function of number and distribution of inspection trials by P. Bakan and R. W. Thompson, 304
- Contralateral and heteromodal interaction effects in somatosensation: Do they exist? by W. R. Uttal and Pamela Smith, 363
- The initial effect of noise on a simple vibrotactile learning task by D. D. Diespecker and W. G. Davenport, 569
- Apparent warmth as a function of thermal irradiation by J. C. Stevens and L. E. Marks, 613

TASTE

- Gustatory quality changes as a function of solution

concentration by E. Dzendolet and H. L. Meiselman, 29

Beidler's theory and human taste stimulation by H. Stone and Shirley M. Oliver (Vol. 1, p. 358)

Erratum, 36

The effect of adaptation on taste judgments by D. H. McBurney, R. A. Kasschau, and L. M. Bogart, 175

Intensity-volume interaction effects in gustatory perception by R. A. M. Gregson and G. L. Paris, 483

Variability in gustatory quality identification by H. L. Meiselman and E. Dzendolet, 496

Detection and apparent taste intensity of salt-acid mixtures in two media by Rose Marie Pangborn and Ida M. Trabue, 503

Beidler's taste equation: A correction by E. Dzendolet, 519

Taste, odor, and tactile discrimination before and after smoking by Rose Marie Pangborn, Ida M. Trabue, and Nina Barylko-Pikielna, 529

Cation and anion contributions to gustatory quality of simple salts by E. Dzendolet and H. L. Meiselman, 601

SMELL

Olfactory detection thresholds in man under conditions of rest and exercise by H. Stone, G. Pryor, and Judith Colwell, 167

Some properties of the olfactory system of man by H. Stone and G. Pryor, 516

REACTION TIME

Effects of electrocutaneous ready-signal variation on visual reaction time by I. Behar and J. S. Warm, 489

Reduction of the "psychological refractory period" by L. Rubinstein and J. Rutschmann, 499

Effects of stimulus-response uncertainty on watch-keeping performance and choice reactions by R. A. Kulp and E. A. Alluisi, 511

ATTENTION AND VIEWING

What we look at when we read by J. Mehler, T. G. Bever, and P. Carey, 213

Human exploratory behavior in a "natural" versus a laboratory setting by S. K. Murray and L. T. Brown, 230

Stimulus familiarity, dogmatism, and the duration of attention by B. T. Leckart and Joan F. Wagner, 268

Decision making in a sequential search task by J. P. Kahan, A. Rapoport, and L. V. Jones, 374

The effect of change in sequential visual stimuli on GSR adaptation: II. The novel stimulus as a disinhibiting stimulus by R. Fried, L. Welch, Miriam Friedman, and Susan Gluck, 419 (9)

On the successive perception of simultaneous stimuli by H. B. Savin, 479

Gestalt similarity principle, difference thresholds and pattern discriminability by A. G. Goldstein, 377

The development of object-permanence: Some studies of existence constancy by T. G. R. Bower, 411

Preparation of ambiguous stimulus material by G. H. Fisher, 421 (9)

The effect of angle between the oblique lines on the decrement of the Müller-Lyer illusion with extended practice by R. E. Dewar, 426 (10)

Pattern uncertainty and the discrimination of visual patterns by D. E. Clement and K. W. Varnadoe, 427 (9)

Relational perception and modes of perceiver operation by H. W. Hake, G. W. Faust, J. S. McIntyre, and H. G. Murray, 469

Perceptual grouping produced by line figures by J. Beck, 491

An investigation of several parameters of the horizontal-vertical illusion by D. A. Begelman and G. Steinfeld, 539

Effect of amount of perceptual learning upon disappearances observed under reduced stimulation conditions by R. C. Tees and Linda K. More, 565

An alternative view of the "Gibson normalization effect" by S. Coren and L. Festinger, 621

Visual disappearances under simplified stimulus conditions caused by auditory perceptual learning by R. C. Tees and Linda K. More, 627

SPACE PERCEPTION

Changes in straight-ahead eye position during adaptation to wedge prisms by S. C. McLaughlin and R. G. Webster, 37

The role of movement in perceptual adaptation to a tilted retinal image by Arien Mack, 65

Induced autokinesis by L. Brosgole, 69

The effect of pattern and texture gradient on slant and shape judgments by Amy L. Kraft and Wilma A. Winnick, 141

The stability of binocular rivalry during spaced and massed viewing by Rosemary Cogan and A. G. Goldstein, 171

The role of phenomenal displacement on the perception of the visual upright by L. Brosgole and R. M. Cristal, 179

Judgments of similarity and spatial models by R. Hyman and A. Well, 233

The effect of meaning on the allocation of visually induced movement by L. Brosgole and Patricia M. Whalen, 275

Magnitude estimates of distance based on object-size by G. Stanley, 287

Some observations and measurements of the Panum phenomenon by C. F. Gettys and G. S. Harker, 387

A saccadic suppression explanation of the Pulfrich phenomenon by G. S. Harker, 423 (9)

Stochastic properties of binocular rivalry alternations by R. Fox and J. Herrmann, 432 (9)

Some observations and measurements of the Pulfrich phenomenon by G. S. Harker and O. L. O'Neal, Jr., 438 (10)

Cue-enhancement as a function of task-set by W. C. Gogel, 455 (10)

Two types of phenomenal instructions for size and distance judgments of objects presented on a two-dimensional plane by C. J. A. Hayes and W. L. King, 556

An onset-onset law for one case of apparent motion and metacontrast by D. Kahneman, 577

The overestimation of vertical distance and slope and its role in the moon illusion by R. Kammann, 585

Disparity increase with convergence for constant perceptual criteria by J. M. Foley, 605

Egocentric localization of the visual horizontal in normal and labyrinthine-defective observers as a function of head and body tilt by B. Clark and A. Graybiel, 609

RECOGNITION

Two operations in character recognition: Some evidence from reaction-time measurements by S. Sternberg, 45

Temporal and interactional effects in short-term storage by H. Buschke and H. Lim, 107

How much help do repeated presentations give to recognition processes? by M. Dainoff and R. N. Haber, 131

In search of ambiguity by D. G. MacKay and T. G. Bever, 193

Short-term visual storage by S. W. Keele and W. G. Chase, 383

Recognition memory for syntactic and semantic aspects of connected discourse by Jacqueline Strunk Sachs, 437 (9)

The effect of encoding training on perceptual recall by M. Glanzer and J. Fleishman, 561

Order of report and processing in tachistoscopic recognition by A. O. Dick and D. J. K. Mewhort, 573

Stimulus correlates of tachistoscopic discrimination-recognition performance: Compactness, jaggedness, and areal asymmetry by G. A. Forsyth and D. R. Brown, 597

EYE MOVEMENTS

A stand camera for line-of-sight recording by N. H. Mackworth, 119

The effects on eye movements of complexity, novelty, and affective tone by T. T. Faw and J. C. Nunnally, 263

Parametric adjustment in saccadic eye movements by S. C. McLaughlin, 359

Pattern recognition and eye-movement parameters by J. D. Gould, 399

The gaze selects informative details within pictures by N. H. Mackworth and A. J. Morandi, 547
